EDUCATION

Fullstack Academy of Code

Software Engineering Immersive

October 2018—February 2019

University of Illinois at Urbana-Champaign

Bachelor of Science in Molecular & Cellular Biology

August 2014—May 2018

PROJECTS

Blog-kl *travel blogging platform* | React, Node, Express, MongoDB

- Built lightweight image editor that returns platform-compatible images scaled and repositioned by users
- Created API endpoints to store and access user-generated data on MongoDB cloud database
- Integrated Leaflet map that enables users to browse for blog posts by geographic location

Pastabilities *mock e-commerce website for purveyors of pasta* | React, Redux, Sequelize, Express, PostgreSQL

- Collaborated with a team of four to build the project using agile methodology and git for version control
- Developed a RESTful API with Express to access and change product and user cart data from client
- Designed user-facing product page with React with user review and add-to-cart functionality
- Implemented centralized application state container with Redux to ensure consistent behavior across front end components

Firechat95 *anonymous proximity-based chat room application* | Firebase, React, Redux

- Worked with team of three to design, build, and deploy application using agile methodology
- Implemented toggleable map component with React and Google Maps API to display user's match area
- Integrated Firebase's Realtime Database, browser's navigator object, and a geohashing library to set up chat rooms

PROFESSIONAL EXPERIENCE

YBM ECC

English Teacher (Contract)

September 2021—March 2022

Busan, South Korea

- Acted as a homeroom teacher and prepared lessons based on the American core curriculum subjects
- Collaborated with parents and school administration to track and progress each student's academic, emotional, and social skills
- Participated in school-wide functions and events to assist in student retention and garner parent interest
- Prepared 30 advanced students for the TOEIC (Test of English for International Communication), a standardized English achievement test used in 160+ countries

Chungdahm Learning Institute

English Teacher (Contract)

February 2021—June 2021

Seoul, South Korea

- Prepared and delivered technology-driven English lessons under one of South Korea's top three English learning institutions
- Cultivated individual learning goals for students such as reading and listening comprehension, critical thinking, and analytical skills
- Regularly evaluated student progression to reapproach any underachieved topics

SKILLS

Javascript, HTML, CSS, Node, NPM, React, Redux, Express, Sequelize, Webpack, PostgreSQL, MongoDB
